Founded in 1954 by an informal organization known as the Urban Planning Research Group, the Research Digest is prepared and distributed semi-annually, in April and November, by the Bureau of Community Planning of the University of Illinois. Its objective is to serve as a medium of communication among individuals and groups engaged in urban and regional research. Abstracts are invited covering research projects recently initiated, projects well underway on which significant progress or findings can be reported, and projects recently completed. Brief notes on items of interest to researchers in this field are also desired, as are special articles in keeping with the character of the publication. Subscription is \$4.00 per year for individuals and \$6.00 for organizations. Address all communications to Research Digest, Bureau of Community Planning, University of Illinois, 1202 West California Avenue, Urbana, Illinois 61803.
